Description of Pony

CLINICAL EXAMINATION

I have examined the pony described above and in my opinion, as far as assessable, there is no evidence of the defects listed hereunder and the pony shows no obvious defect in conformation which may predispose to unsoundness for riding or breeding.

- Congenital eye defects
- Cleft Palate
- Parrot Mouth (under 5.00mms permitted)
- Defective Genital Organs
- Locking Stifle
- Curb
- Club feet

- Bog Spavin
- Hernia (umbilical or scrotal)
- Stringhalt (Congenital)
