

## TRALEE GALILEO

### JO HEARD MEMORIAL AWARD

I'm not sure if non-members can nominate? but I think Leanne Barkers pony Leo is a worthy nominee.... Leo has been a motivation and distraction for Leanne during her recent Cancer treatment (which is ongoing) her confidant, her means to social engagement and the highlight of her often worrying and painful days over this time... Leanne predominantly pleasure rides with some showing and local events sprinkled throughout their year (they were 4th or 5th in a recent navigation ride held by Northern adult riding club NARC(westbury tasmania) ... interestingly Leo was not her original choice of pony (he was one of the many rescue connies in tasmania and her original pony sadly passed with colic shortly after she got it) Leo fell into her lap thank goodness because i firmly believe they needed each other.... for 1000 different reasons.. thanks for considering this in your decision
